SUMMARY

Product professional with hands-on experience owning product vision, backlog and delivery for a SaaS platform, plus earlier roles bridging business stakeholders and development teams as a requirements liaison. Comfortable running Agile ceremonies, translating business needs into user stories and acceptance criteria, and working directly with engineering on APIs, integrations and technical requirements. Bulgaria-based, immediately able to work from Varna.

WORK EXPERIENCE

Product Manager — Your Crayon Story, Remote

Jun 2025 – Sep 2026

- Own the product vision, roadmap and backlog for a personalized children's storytelling SaaS platform, prioritizing features by customer value, delivery effort and business goals.
- Translate business and customer requirements into actionable specifications, working directly with engineering across APIs, authentication, payments and third-party integrations.
- Designed the end-to-end customer journey from landing page through payment and digital delivery, removing friction points along the way.
- Manage iterative product improvements through continuous testing, stakeholder feedback and refinement, using data and user insight to guide decisions.
- Defined pricing strategy, product positioning and monetization model; built the analytics and SEO strategy behind customer acquisition and growth.

Unity Game Developer – The Sixth Hammer / Freelance

Nov 2022 – Sep 2024

- Gathered and clarified requirements directly with clients, then delivered gameplay systems, UI and WebGL features from concept through release.
- Coordinated production cycles and delivery tracking via GitHub, ClickUp and SourceTree across multiple concurrent projects.

Social Media & Community Manager — Airstage

Sep 2017 – Sep 2018

- Acted as the primary liaison between the product owner and development team, clarifying requirements and coordinating feature delivery.
- Tracked development progress against plan and helped ensure timely completion of committed work.
- Collected and relayed user feedback to support ongoing product improvements.
- Managed social media profiles.

Affiliate Marketing Manager — Purify Digital Limited

May 2015 – Aug 2017

- Managed affiliate partnerships and campaign performance, analyzing results to identify optimization opportunities.
- Collaborated with cross-functional teams to improve campaign effectiveness.

Customer Success, QA & Corporate Trainer — 411 Locals

Jan 2010 – May 2015

- Improved service quality through process analysis and coaching across customer service, technical support and sales QA roles, supporting smooth process transitions.
- Trained and mentored new employees; analyzed customer interactions to identify improvement opportunities.
- Also served as SEO Specialist (2010), applying keyword optimization to support organic visibility.
